NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

Year ended March 31, 2024

1. BASIS OF PRESENTATION OF CONSOLIDATED FINANCIAL STATEMENTS

The accompanying consolidated financial statements have been prepared in accordance with the provisions set forth in the Japanese Financial Instruments and Exchange Act, the Japanese Electric Utility Law and its related accounting regulations, and in accordance with accounting principles generally accepted in Japan, which are different in certain respects as to the application and disclosure requirements of IFRS Accounting Standards.

In preparing these consolidated financial statements, certain reclassifications and rearrangements have been made to the consolidated financial statements issued domestically in order to present them in a form which is more familiar to readers outside Japan. In addition, certain reclassifications have been made in the 2023 consolidated financial statements to conform to the classifications used in 2024.

The consolidated financial statements are stated in Japanese yen, the currency of the country in which Shikoku Electric Power Company, Incorporated（the “Company”）is incorporated and operates. The translations of Japanese yen amounts into U.S. dollar amounts are included solely for the convenience of readers outside Japan and have been made at the rate of ¥151 to $1, the approximate rate of exchange at March 31, 2024. Such translations should not be construed as representations that the Japanese yen amounts could be converted into U.S. dollars at that or any other rate.

Amounts less than one million yen and less than one thousand U.S. dollars have been rounded down, except for per share data.

As a result, the totals shown in the accompanying consolidated financial statements (both in yen and U.S. dollars) do not necessarily agree with the sums of the individual amounts.

2. SIGNIFICANT ACCOUNTING AND REPORTING POLICIES

(a) Consolidation and investments in unconsolidated subsidiaries and associates

In principle, under the control and influence concepts, those companies in which the Company, directly or indirectly, is able to exercise control over operations are fully consolidated, and those companies over which the Company or significant subsidiaries have the ability to exercise significant influence are accounted for by the equity method. The consolidated financial statements as of March 31, 2024, include the accounts of the Company and its twelve subsidiaries (collectively the “Group”).

Investments in two unconsolidated subsidiary and eight associates, are accounted for by the equity method. In the current fiscal year, three associates (Phu Yen TTP JSC, Blue Horizon Power International Ltd. and Riyadh IPP Holding Company W.L.L.) were added to equity method associates, and one affiliate (Orchid Wind Power GmbH) was excluded from equity method associates because the company agreed to give up its voting rights and transfer its shares.

Investments in the remaining unconsolidated subsidiaries and associates are stated at cost. If the equity method of accounting had been applied to the investments in these companies, the effect on the accompanying consolidated financial statements would not be material.

The excess of the cost of acquisition over the fair value of the net assets of an acquired subsidiary at the date of acquisition is amortized over a maximum period of 20 years.

All significant intercompany balances and transactions have been eliminated in consolidation. All material unrealized profit included in assets resulting from transactions within the Group is also eliminated.

The fiscal year end of one consolidated subsidiary is December 31. The Company consolidates such consolidated subsidiary’s financial statements using its financial results for the year ended December 31. The effects of any significant transactions during the period between the subsidiary’s fiscal year end and the Company’s fiscal year end are reflected in the consolidated financial statements.

(b) Property, plant and equipment

Property, plant and equipment are stated at cost. Contributions in aid of construction include contributions made by customers and are deducted from the cost of the related assets in accordance with the regulations described in Note 1.

Depreciation of property, plant and equipment is computed by the straight-line method based on the estimated useful lives of the assets.

(c) Long-lived assets

The Group reviews its long-lived assets for impairment whenever events or changes in circumstances indicate the carrying amount of an asset or asset group may not be recoverable. An impairment loss is recognized if the carrying amount of an asset or asset group exceeds the sum of the undiscounted future cash flows expected to result from the continued use and eventual disposition of the asset or asset group. The impairment loss would be measured as the amount by which the carrying amount of the asset exceeds its recoverable amount, which is the higher of the discounted cash flows from the continued use and eventual disposition of the asset or the net selling price at disposition.

(d) Amortization of nuclear fuel

Amortization of nuclear fuel is computed based on the quantity of heat produced for the generation of electricity.

(e) Investment securities

All investment securities are classified and accounted for, depending on management's intent, as follows:

Available-for-sale securities are reported at fair value, with unrealized gains and losses, net of applicable taxes, reported as a separate component of equity. Nonmarketable available-for-sale equity securities are stated at cost, determined by the moving-average method.

For other-than-temporary declines in fair value, investment securities are reduced to net realizable value by a charge to income.

(f) Special account related to nuclear power decommissioning

On September 28, 2017, “Ordinance on Accounting at Electricity Utilities” (Ordinance of the Ministry of Economy, Trade and Industry No.77, 2017; “Revised Ordinance”) was revised.

After the date of enforcement of the Revised Ordinance (September 28, 2017), in the event of decommissioning of a nuclear reactor resulting from changes in energy policies, based on the accounting regulations, the following assets and costs may be posted as or transferred to a special account related to nuclear power decommissioning with the approval of the Minister of Economy, Trade and Industry: (A) The carrying amount of fixed assets requiring maintenance to operate a nuclear reactor at the time of its decommissioning (excludes the carrying amount of specified assets for nuclear power and includes the carrying amount of fixed assets recorded as construction in progress that are limited to items for which construction is not completed after the suspension of nuclear reactor operations); (B) The carrying value of nuclear fuel for said reactor (excludes projected disposal amounts); and (C) Cost of reprocessing of irradiated nuclear fuel generated in connection with the decommissioning of the nuclear reactor, and amount corresponding to costs necessary to dismantle the components of the nuclear fuel.

The special account related to nuclear power decommissioning has been collected by a transmission fee of the general electricity transmission and distribution. The Company were received approval of special assets for nuclear power, special account related to nuclear power decommissioning and provision for decommissioning of nuclear power units (collectively “Contribution for facilitating nuclear reactor decommissioning”) from the minister of Economy, Trade, and Industry in accordance with Regulation for Enforcement of Electricity Business act, article 45-21-12 (Act No.77 of 1995, Ministry of International Trade and Industry). In response, the Group changed the transportation service provision in accordance with - Regulation for Enforcement of Electricity Business act, article 45-21-11 - and has collected contribution for facilitating nuclear reactor decommissioning.

The special account related to nuclear power decommissioning has been amortized by amortization expense of the special account related to nuclear power decommissioning, upon collection of the transmission fee.

(g) Cost of reprocessing irradiated nuclear fuel

The cost of reprocessing nuclear fuel irradiated from the operation of nuclear power facilities as contribution, defined by the Act for Partial Revision of the Spent Nuclear Fuel Reprocessing Implementation Act (Act No. 40 of 2016), has been recognized as electric utility operating expenses in proportion to the amount of irradiated nuclear fuel from the nuclear power facilities.

Contributions include those made in relation to reprocessing of spent fuel, and these contributions have been organized into a special account related to reprocessing of spent nuclear fuel.

(h) Cash equivalents

Cash equivalents are deposits and short-term investments that are readily convertible into cash and exposed to insignificant risk of changes in value. Cash equivalents include time deposits, etc., all of which mature or become due within three months of the date of acquisition.

(i) Inventories

Inventories, principally fuel for power generation, are stated at the lower of cost, determined by the average method, or net realizable value.

(j) The standards for recognition of significant revenues

In the electric business, which is the main business of the corporate group, the Company mainly sell and wholesale electricity, and the performance obligation is the supply of electricity based on the contract with the customer. Regarding these performance obligations, revenue is recognized mainly based on the amount of electricity determined by meter reading (based on the meter reading date) in accordance with the Electric Utility Accounting Regulation.

In addition, payments are received within approximately one month from the date when the amount of electricity was determined by meter reading, and the amount of consideration does not include important financial factors.

(k) Retirement and pension plans

The Company accounts for the liability and assets for retirement benefits based on the projected benefit obligations and plan assets at the balance sheet date. The projected benefit obligations are mainly attributed to periods on a benefit formula basis. Actuarial gains and losses and past service costs that are yet to be recognized in profit or loss are recognized within equity (accumulated other comprehensive income), after adjusting for tax effects. Actuarial gains and losses are mainly amortized in the following period year and past service costs are mainly amortized in the current period.

(l) Asset retirement obligations
An asset retirement obligation is recorded for a legal obligation imposed either by law or contract that results from the acquisition, construction, development, and normal operation of a tangible fixed asset and is associated with the retirement of such tangible fixed asset. The asset retirement obligation is recognized as the sum of the discounted cash flows required for the future asset retirement and is recorded in the period in which the obligation is incurred if a reasonable estimate can be made. If a reasonable estimate of the asset retirement obligation cannot be made in the period the asset retirement obligation is incurred, the liability should be recognized when a reasonable estimate of the asset retirement obligation can be made. Upon initial recognition of a liability for an asset retirement obligation, an asset retirement cost is capitalized by increasing the carrying amount of the related fixed asset by the amount of the liability. Any subsequent revisions to the timing or the amount of the original estimate of undiscounted cash flows are reflected as an adjustment to the carrying amount of the liability and the capitalized amount of the related asset retirement cost.

For nuclear power units, the Company recognizes asset retirement obligations as the sum of the discounted cash flows using a discount rate of 2.3%. However, the Company recognizes asset retirement obligations as the amount determined by the Japanese Electric Utility Law and its related accounting regulations if such amount is higher than the sum of the discounted cash flows.

(m) Income taxes
The provision for income taxes is computed based on the pretax income included in the consolidated statement of income.

The asset and liability approach is used to recognize deferred tax assets and liabilities for the expected future tax consequences of temporary differences between the carrying amounts and the tax bases of assets and liabilities. Deferred taxes are measured by applying currently enacted income tax rates to the temporary differences.

(n) Bond issuance costs
Bond issuance costs are charged to income as incurred.

(o) Foreign currency transactions
Short-term and long-term monetary receivables and payables denominated in foreign currencies are translated into Japanese yen at the exchange rates in effect as of each balance sheet date. The foreign exchange gains and losses from translation are recognized in the consolidated statement of income to the extent that they are not hedged by forward exchange contracts.

(p) Foreign currency financial statements
The balance sheet accounts of the consolidated foreign subsidiary are translated into Japanese yen at the current exchange rate as of the balance sheet date except for equity, which is translated at the historical rate. Differences arising from such translation are shown as “Foreign currency translation adjustments” under accumulated other comprehensive income in a separate component of equity. Revenue and expense accounts of the consolidated foreign subsidiary are translated into yen at the current exchange rate as of the balance sheet date.

(q) Derivative and hedging activities
The Group uses derivative financial instruments to manage its exposures to fluctuations in foreign currency exchange rates and interest rates. Foreign exchange forward contracts and interest rate swaps are utilized by the Group to reduce foreign currency exchange rate and interest rate risks. The Group does not enter into derivatives for trading or speculative purposes.

For derivatives used for hedging purposes, if the derivatives qualify for hedge accounting because of high correlation and effectiveness between the hedging instruments and the hedged items, gains or losses on derivatives are deferred until maturity of the hedged transactions.

Payables denominated in foreign currencies for which foreign exchange forward contracts are used to hedge the foreign currency fluctuations are translated at the contracted rate if the forward contracts qualify for hedge accounting.

The interest rate swaps which qualify for hedge accounting and which meet specific matching criteria are not remeasured at market value, but the differential paid or received under the swap agreements is recognized and included in interest expense.

(r) Per share information
Basic net income per share is computed by dividing net income available to common shareholders by the weighted-average number of common shares outstanding for the period.

Diluted net income per share is not disclosed because dilutive securities are not issued.

3. SIGNIFICANT ACCOUNTING ESTIMATES

Current fiscal year (year ended March31, 2024)

(I) Recoverability of deferred tax assets
(1) Carrying amounts
See Note 13 about the amount of deferred tax assets in the consolidated balance sheet for the current fiscal year.

(2) Information on the significant accounting estimate
The Group records the recoverable amount of deferred tax based on estimated taxable income in the future. This estimated taxable income is calculated based on business plans approved by management and available information when the Company prepares consolidated financial statements. Estimated electricity sales volume and related costs are included in these main plans and information. If these assumptions of plans and information are changed, the judgement of recoverability of deferred tax assets may be affected.

(II) Investment in overseas power generation business
(1) Carrying amounts

	Millions of yen	Thousands of U.S. dollars
	March 31,	March 31,
	2024	**2024**
Investment in overseas power generation business	**¥ 58,961**	**$ 390,470**

Notes: 1. Investments in overseas power generation business in the above table are included in investment securities and investments in and advances to unconsolidated subsidiaries and associate, and other assets on the consolidated balance sheet.

(2) Information on the significant accounting estimate
The Company invests in the overseas power generation business mainly through its consolidated subsidiary SEP International Netherlands B.V. , the equity method is applied to the investment in unconsolidated subsidiaries and affiliated companies, and the performances of these businesses are reflected through investment gains and losses based on the equity method.

If any of these investments show indicators of a decline in business profitability, the investment amount exceeding the recoverable amount calculated based on cash flow outlook based on the business plan, etc., is recognized as a loss. In addition, if a debt guarantee is provided, the financial condition of the guaranteed party will be taken into account, and provision for loss on guarantees is recognized when the possibility of loss arising from the performance of the guarantee obligation increase.

Due to changes in the external environment such as policy changes related to environment and energy, and the emergence of country risks in the countries, there is a possibility that cash flows expected to be obtained in the future will deteriorate significantly, and in that case, it may affect the valuation of investments.

Previous fiscal year (year ended March31, 2023)

(I) Recoverability of deferred tax assets
(1) Carrying amounts
See Note 13 about the amount of deferred tax assets in the consolidated balance sheet for the previous fiscal year.

(2) Information on the significant accounting estimate
The Group records the recoverable amount of deferred tax based on estimated taxable income in the future. This estimated taxable income is calculated based on business plans approved by management and available information when the Company prepares consolidated financial statements. Estimated electricity sales volume and related costs are included in these main plans and information. If these assumptions of plans and information are changed, the judgement of recoverability of deferred tax assets may be affected.

(II) Impairment of an Assets Group Relating to Data Center Business
(1) Carrying amounts

	Millions of yen
	March 31,
	2023
Other plant and equipment	**¥ 9,762**

(2) Information on the significant accounting estimate
STNet, Incorporated, which is the core company of Telecommunications Business, owns special structures which combine disaster-resistant robustness and a high degree of security required for the data center business. The operating income from this business has been continuously negative, and there is an indication that these business assets may be impaired, but, in the current fiscal year, the impairment loss of data center business assets is not recognized because the undiscounted future cash flows exceed the carrying amount of these assets. The undiscounted future cash flows are calculated based on the forecast of new customer acquisitions and the data center usage unit price in the business plan approved by management. An impairment loss is possibly recognized if these business plans are changed in the next fiscal year.

(Ⅲ) Investment in overseas power generation business

(1) Carrying amounts

	Millions of yen March 31, 2023
Investment in overseas power generation business	**¥ 43,321**
Liabilities from application of equity method	**1,710**
Provision for loss on guarantees	**8,536**
Loss on investment in overseas power generation business	**18,893**

Notes: 1. Investments in overseas power generation businesses in the above table are included in investment securities and investments in and advances to unconsolidated subsidiaries and associate, and other assets on the consolidated balance sheet.
2. Liabilities from application of equity method in the above table are included in other long-term liabilities on the consolidated balance sheet.
3. Loss on investment in overseas power generation business in the above table are included in equity in losses of associates and provision for loss on guarantees on the consolidated statements of operations.

(2) Information on the significant accounting estimate

The Company invests in the overseas power generation business mainly through its consolidated subsidiary SEP International Netherlands B.V. , the equity method is applied to the investment in unconsolidated subsidiaries and affiliated companies, and the performance of these businesses is reflected through investment gains and losses based on the equity method.

If any of these investments show indicators of a decline in business profitability, the investment amount exceeding the recoverable amount calculated based on cash flow outlook based on the business plan, etc., is recognized as a loss. In addition, if a debt guarantee is provided, the financial condition of the guaranteed party will be taken into account, and provision for loss on guarantees is recognized when the possibility of loss arising from the performance of the guarantee obligation increase.

Due to the decrease in profitability in the Taiwan offshore wind power generation business invested by SEP International Netherlands B.V., the recoverable amount fell below the investment amount and the increased possibility of loss associated with the performance of the guarantee obligation. Based on the above, liabilities from application of equity method, provision for loss on guarantees and loss on investment in overseas power generation business are recorded in the current consolidated fiscal year.

Due to changes in the external environment such as policy changes related to environment and energy, and the emergence of country risks in the countries, there is a possibility that cash flows expected to be obtained in the future will deteriorate significantly, and in that case, it may affect the valuation of investments.

4. CHANGES IN PRESENTATION

Consolidated Statements of Income

"Gains of non current assets" which was separately presented in the previous fiscal year, is included in ‘Other’ under non-operating income because it became insignificant.

As a result, ¥(239) million displayed as "Gains of non current assets" in the consolidated statement of income for the previous fiscal year has been reclassified as "Other".

5. REVISION OF ELECTRIC UTILITY ACCOUNTING REGULATION WITH THE ENFORCEMENT OF THE "ACT FOR PARTIAL REVISION OF THE ELECTRICITY BUSINESS ACT AND OTHER ACTS FOR ESTABLISHING ELECTRICITY SUPPLY SYSTEMS FOR REALIZING A DECARBONIZED SOCIETY".

On April 1, 2024, the "Act for Partial Revision of the Electricity Business Act and Other Acts for Establishing Electricity Supply Systems for Realizing a Decarbonized Society" (Act No. 44 of 2023; hereinafter referred to as the "Revised Act") and "Ministerial Ordinance Concerning the Establishment of Relevant Ministerial Ordinances with the Enforcement of the Act for Partial Revision of the Electricity Business Act and Other Acts for Establishing Electricity Supply Systems for Realizing a Decarbonized Society" (Ordinance of the Ministry of Economy, Trade and Industry No. 21 of 2024, hereinafter referred to as the "Revised Ministerial Ordinance ") were enacted. As a result, the "Ministerial Ordinance Concerning Provision for Decommissioning of Nuclear Power Units" (hereinafter referred to as the "Revised Ministerial Ordinance on Decommissioning") was abolished and the "Electric Utilities Accounting Regulation" was revised.

The costs required for decommissioning of nuclear power generation facilities have been conventionally accounted for as expenses in accordance with the pre-revised Ministerial Ordinance on Decommissioning, by applying Paragraph 8 ("In the case that there is appropriate method to recognize and measure the cost of removal in accordance with special laws or regulations, etc.) of the "Guidance on Accounting Standard for Asset Retirement Obligations" (the Accounting Standards Board of Japan (ASBJ) Guidance No. 21, March 31, 2008). However, according to the Revised Ministerial Ordinance, after the effective date of the revision, expenses will be recognized as the decommissioning contribution payments prescribed in Article 11, Paragraph 2 of the "Act for Reprocessing of the Spent Fuel for Nuclear Power Units and Promotion of Decommissioning" as revised by Article 3 of the Revised Act.

Previously, each nuclear operators had the responsibility to secure funds for decommissioning of own commercial nuclear power reactors, however, based on the Revised Act, the operators are only obligated to make payments of decommissioning contributions to the Nuclear Reprocessing and Decommissioning facilitation Organization of Japan (hereinafter referred to as "NuRO") each fiscal year. NuRO is now economically responsible for securing, managing, and paying for the funds required for decommissioning of the reactors.

As a result, 11,367million ($75,278 thousand) of assets and 132,811million ($879,543 thousand) of liabilities related to asset retirement obligations for the reactors will be reversed in the first quarter of FY2024.

The total amount of 124,324 million ($823,337 thousand), which must be paid to NuRO to cover the funding and operating costs for decommissioning promotion activities pursuant to the provision of Article 10, Paragraph 1 of the Supplementary Provisions of the Revised Act, will be recorded as unpaid decommissioning contributions and expenses in accordance with the provision of Article 7, Paragraph 1 of the Supplementary Provisions of the Revised Ministerial Ordinance. The expenses are netted with the reverse of assets and liabilities related to asset retirement obligations mentioned above in accordance with same article, therefore, there is no impact on the profit and loss.

In addition, 2,880 million ($19,072 thousand) has been recorded in the special account related to nuclear power decommissioning in accordance with Article 8 of the Supplementary Provisions of the Revised Ministerial Ordinance.

6. PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment at carrying amount at March 31, 2024 and 2023, were as follows:

	Millions of yen		Thousands of U.S. dollars
	March 31,		March 31,
	2024	2023	**2024**
Hydroelectric power	**¥ 291,842**	¥ 288,815	**$ 1,932,728**
Thermal power	**577,970**	477,154	**3,827,615**
Nuclear power	**804,068**	804,733	**5,324,953**
Transmission facilities	**579,876**	575,692	**3,840,238**
Transformation facilities	**370,933**	369,895	**2,456,509**
Distribution facilities	**509,573**	506,017	**3,374,655**
General facilities	**98,407**	100,701	**651,701**
Total utility plant, at cost	**3,232,672**	3,123,009	**21,408,423**
Other plant and equipment, at cost	**301,969**	293,022	**1,999,794**
Construction in progress	**22,698**	121,483	**150,317**
Total	**3,557,340**	3,537,515	**23,558,543**
Less contributions in aid of construction	**(53,713)**	(53,895)	**(355,715)**
Less accumulated depreciation	**(2,595,713)**	(2,567,940)	**(17,190,152)**
Carrying amount	**¥ 907,914**	¥ 915,678	**$ 6,012,675**

7. INVESTMENT SECURITIES

(1) Information regarding each category of the securities classified as available-for-sale is as follows:

	Millions of yen			
	Cost	Unrealized Gains	Unrealized Losses	Fair Value
March 31, 2024				
Securities classified as:				
Available-for-sale:				
Equity securities	**¥ 1,099**	**¥ 302**	**¥ (151)**	**¥ 1,251**
Corporate bonds	**1,871**	**103**		**1,975**
Other securities	**26**	**6**		**32**
Total	**¥ 2,997**	**¥ 412**	**¥ (151)**	**¥ 3,259**

	Thousands of U.S. dollars			
	Cost	Unrealized Gains	Unrealized Losses	Fair Value
March 31, 2024				
Securities classified as:				
Available-for-sale:				
Equity securities	**$ 7,278**	**$ 2,000**	**$ (1,000)**	**$ 8,284**
Corporate bonds	**12,390**	**682**		**13,079**
Other securities	**172**	**39**		**211**
Total	**$ 19,847**	**$ 2,728**	**$ (1,000)**	**$ 21,582**

Nonmarketable available-for-sale equity securities (consolidated balance sheet amount of ¥33,013 million ($218,629 thousand)) and investing in unions, etc. that record the amount equivalent to equity in net amount in the balance table (consolidated balance sheet amount of ¥8,881 million ($58,814 thousand)) were not included.

	Millions of yen			
	Cost	Unrealized Gains	Unrealized Losses	Fair Value
March 31, 2023				
Securities classified as:				
Available-for-sale:				
Equity securities	¥ 1,425	¥ 321	¥ (0)	¥ 1,747
Corporate bonds	1,871		(85)	1,786
Other securities	26	2		28
Total	¥ 3,324	¥ 323	¥ (85)	¥ 3,562

Nonmarketable available-for-sale equity securities (consolidated balance sheet amount of ¥31,875 million) and investing in unions, etc. that record the amount equivalent to equity in net amount in the balance table (consolidated balance sheet amount of ¥13,688 million) were not included.

Some of the above investment securities are pledged as collateral for long-term debt from financial institutions, see Note 9 for details.

(2) The proceeds, realized gains and realized losses of the available-for-sale securities which were sold during the years ended March 31, 2024 and 2023, were as follows:

	Millions of yen		
	Proceeds	Realized Gains	Realized Losses
March 31, 2024			
Available-for-sale:			
Equity securities	**¥ 995**	**¥ 626**	
Total	**¥ 995**	**¥ 626**	

	Thousands of U.S. dollars		
	Proceeds	Realized Gains	Realized Losses
March 31, 2024			
Available-for-sale:			
Equity securities	**$ 6,589**	**$ 4,145**	
Total	**$ 6,589**	**$ 4,145**	

	Millions of yen		
	Proceeds	Realized Gains	Realized Losses
March 31, 2023			
Available-for-sale:			
Equity securities	¥ 2,743	¥ 1,852	
Total	¥ 2,743	¥ 1,852	

(3) The impairment losses on available-for-sale equity securities

The impairment losses on available-for-sale equity securities for the years ended March 31, 2024 and 2023, were ¥402 million ($2,662 thousand) and ¥1,366 million, respectively.
If the market value at the end of the period declines by 50% or more from the acquisition cost, all impairment is recorded, and if the market value at the end of the period declines by approximately 30% to 50% from the acquisition cost, impairment losses are recorded for amounts deemed necessary in consideration of recoverability.

8. INVENTORIES

Inventories at March 31, 2024 and 2023, consisted of the following:

	Millions of yen		Thousands of U.S. dollars
	March 31,		March 31,
	2024	2023	**2024**
Merchandise and finished products	**¥ 392**	¥ 595	**$ 2,596**
Work-in-process	**7,221**	9,349	**47,821**
Raw materials and supplies	**35,454**	50,029	**234,794**
Total	**¥ 43,068**	¥ 59,974	**$ 285,218**

9. LONG-TERM DEBT

Long-term debt at March 31, 2024 and 2023, consisted of the following:

	Millions of yen		Thousands of U.S. dollars
	March 31,		March 31,
	2024	2023	**2024**
0.13% to 2.26% (0.13% to 2.26% in 2023) domestic bonds, due on various dates through 2052	**¥ 431,994**	¥ 461,992	**$ 2,860,887**
0.41% to 0.99% (0.41% to 0.99% in 2023) loans from The Development Bank of Japan, due on various dates through 2031	**20,000**	25,000	**132,450**
0.24% to 2.20% (0.24% to 2.20% in 2023) loans principally from banks and insurance companies, due on various dates through 2041	**465,300**	461,300	**3,081,456**
Obligations under finance leases	**16,024**	15,568	**106,119**
Total	**933,318**	963,861	**6,180,913**
Less current portion	**(78,152)**	(90,280)	**(517,562)**
Long-term debt, less current portion	**¥ 855,165**	¥ 873,581	**$ 5,663,344**

All of the Company's assets are subject to certain statutory preferential rights as collateral for loans from The Development Bank of Japan listed in the above table, for bonds.

Annual maturities of long-term debt at March 31, 2024, were as follows:

Years ending March 31,	Millions of yen	Thousands of U.S. dollars
2025	¥ 78,152	$ 517,562
2026	71,184	471,417
2027	58,448	387,072
2028	115,539	765,158
2029	75,890	502,582
2030 and thereafter	534,108	3,537,139
Total	¥ 933,324	$ 6,180,953

The investment of certain consolidated subsidiaries that are pledged as collateral for investees' long-term debt from financial institutions were as follows:

	Millions of yen		Thousands of U.S. dollars
	March 31,		March 31,
	2024	2023	**2024**
Investment securities	**¥ 752**	¥ 995	**$ 4,980**
Investments in and advances to unconsolidated subsidiaries and associates	**19,436**	15,362	**128,715**

10. RETIREMENT AND PENSION PLANS

The Company has a defined benefit pension plan based on the Defined Benefit Corporate Pension Act, a lump-sum retirement benefit plan, and a defined contribution pension plan. The consolidated subsidiaries have adopted some of these plans.
Certain consolidated subsidiaries calculate net defined benefit assets, net defined benefit liabilities, and net periodic benefit cost by the simple method.
In certain cases, the Group pays additional retirement benefits for employees.

(1) The changes in defined benefit obligation for the years ended March 31, 2024 and 2023, were as follows:

	Millions of yen		Thousands of U.S. dollars
	2024	2023	**2024**
Balance at beginning of year	**¥ 134,310**	¥ 138,192	**$ 889,470**
Current service cost	**4,539**	4,695	**30,059**
Interest cost	**184**	162	**1,218**
Actuarial gains and losses	**(1,631)**	(546)	**(10,801)**
Benefits paid	**(8,489)**	(8,212)	**(56,218)**
Past service cost		19	
Balance at end of year	**¥ 128,915**	¥ 134,310	**$ 853,741**

Note: The above does not include plans applying the simple method.

(2) The changes in plan assets for the years ended March 31, 2024 and 2023, were as follows:

	Millions of yen		Thousands of U.S. dollars
	2024	2023	**2024**
Balance at beginning of year	**¥ 123,807**	¥ 125,958	**$ 819,913**
Expected return on plan assets	**2,474**	2,517	**16,384**
Actuarial gains and losses	**5,557**	(583)	**36,801**
Contributions from the employer	**2,350**	2,439	**15,562**
Benefits paid	**(6,699)**	(6,525)	**(44,364)**
Balance at end of year	**¥ 127,489**	¥ 123,807	**$ 844,298**

Note: The above does not include plans applying the simple method.

(3) The changes in net defined benefit liabilities and net defined benefit assets for plans applying the simple method for the years ended March 31, 2024 and 2023, were as follows:

	Millions of yen		Thousands of U.S. dollars
	2024	2023	**2024**
Balance at beginning of year	**¥ 824**	¥ 754	**$ 5,456**
Net periodic benefit cost	**89**	185	**589**
Benefits paid	**(117)**	(43)	**(774)**
Contributions from the employer to plan assets	**(78)**	(71)	**(516)**
Balance at end of year	**¥ 719**	¥ 824	**$ 4,761**

(4) A reconciliation between the liabilities and assets recorded in the consolidated balance sheet and the balances of defined benefit obligation and plan assets is as follows:

	Millions of yen		Thousands of U.S. dollars
	March 31,		March 31,
	2024	2023	**2024**
Funded defined benefit obligation	**¥ 110,866**	¥ 113,736	**$ 734,211**
Plan assets	**(127,489)**	(123,807)	**(844,298)**
	(16,623)	(10,070)	**(110,086)**
Unfunded defined benefit obligation	**18,048**	20,573	**119,523**
Net liabilities arising from defined benefit obligation	**¥ 1,425**	¥ 10,503	**$ 9,437**

	Millions of yen		Thousands of U.S. dollars
	March 31,		March 31,
	2024	2023	**2024**
Net defined benefit liabilities	**¥ 18,095**	¥ 20,789	**$ 119,834**
Net defined benefit assets	**(16,670)**	(10,285)	**(110,397)**
Net liabilities arising from defined benefit obligation	**¥ 1,425**	¥ 10,503	**$ 9,437**

Note: The above does not include plans applying the simple method.

(5) A reconciliation between the liabilities and assets recorded in the consolidated balance sheet and the balances of defined benefit obligation and plan assets for plans applying the simple method is as follows:

	Millions of yen		Thousands of U.S. dollars
	March 31,		March 31,
	2024	2023	**2024**
Funded defined benefit obligation	**¥ 1,665**	¥ 1,695	**$ 11,026**
Plan assets	**(1,265)**	(1,182)	**(8,377)**
	400	512	**2,649**
Unfunded defined benefit obligation	**318**	312	**2,105**
Net liabilities arising from defined benefit obligation	**¥ 719**	¥ 824	**$ 4,761**

	Millions of yen		Thousands of U.S. dollars
	March 31,		March 31,
	2024	2023	**2024**
Net defined benefit liabilities	**¥ 865**	¥ 922	**$ 5,728**
Net defined benefit assets	**(146)**	(97)	**(966)**
Net liabilities arising from defined benefit obligation	**¥ 719**	¥ 824	**$ 4,761**

(6) The components of net periodic benefit costs for the years ended March 31, 2024 and 2023, were as follows:

	Millions of yen		Thousands of U.S. dollars
	2024	2023	**2024**
Current service cost	**¥ 4,539**	¥ 4,695	**$ 30,059**
Interest cost	**184**	162	**1,218**
Expected return on plan assets	**(2,474)**	(2,517)	**(16,384)**
Recognized actuarial gains	**218**	(904)	**(1,443)**
Amortization of prior service cost	**3**	1	**19**
Others	**(94)**	(106)	**(622)**
Net periodic benefit costs	**¥ 2,377**	¥ 1,330	**$ 15,741**

Note: The above does not include plans applying the simple method.

(7) Net periodic benefit cost for plans applying the simple method for the years ended March 31, 2024 and 2023, was as follows:

	Millions of yen		Thousands of U.S. dollars
	2024	2023	**2024**
Net periodic benefit cost	**¥ 89**	¥ 185	**$ 589**

(8) Amounts recognized in other comprehensive income (before income tax effect) in respect of defined retirement benefit plans for the years ended March 31, 2024 and 2023, were as follows:

	Millions of yen		Thousands of U.S. dollars
	2024	2023	**2024**
Prior service cost	**¥ (3)**	¥ 17	**$ (19)**
Actuarial losses	**(7,406)**	941	**(49,406)**
Total	**¥ (7,410)**	¥ 959	**$ (49,072)**

(9) Amounts recognized in accumulated other comprehensive income (before income tax effect) in respect of defined retirement benefit plans as of March 31, 2024 and 2023, were as follows:

	Millions of yen		Thousands of U.S. dollars
	March 31,		March 31,
	2024	2023	**2024**
Unrecognized prior service cost	**¥ 13**	¥ 17	**$ 86**
Unrecognized actuarial gains	**(7,610)**	(203)	**(50,397)**
Total	**¥ (7,596)**	¥ (186)	**$ (50,304)**

(10) Plan assets

a. Components of plan assets

Plan assets as of March 31, 2024 and 2023, consisted of the following:

	2024	2023
Debt investments	29%	31%
Equity investments	15	13
Life insurance company general accounts	51	53
Others	5	3
Total	100%	100%

b. Method of determining the expected rate of return on plan assets

The expected rate of return on plan assets is determined considering the long-term rates of return which are expected currently and in the future from the various components of the plan assets.

(11) Assumptions used for the years ended March 31, 2024 and 2023, were set forth as follows:

	2024	2023
Discount rate	Mainly 0.1%	Mainly 0.1%
Expected rate of return on plan assets	Mainly 2.0	Mainly 2.0

(12) Defined contribution pension plan cost for the years ended March 31, 2024 and 2023, was as follows:

	Millions of yen		Thousands of U.S. dollars
	2024	2023	**2024**
Defined contribution pension plan cost	**¥ 1,475**	¥ 1,510	**$ 9,768**

11. ASSET RETIREMENT OBLIGATIONS

The changes in asset retirement obligations for the years ended March 31, 2024 and 2023, were as follows:

	Millions of yen		Thousands of U.S. dollars
	2024	2023	**2024**
Balance at beginning of year	**¥ 130,494**	¥ 128,796	**$ 864,198**
Reductions associated with settlement of asset retirement obligations	**(1,319)**	(1,465)	**(8,735)**
Other	**3,635**	3,164	**24,072**
Balance at end of year	**¥ 132,811**	¥ 130,494	**$ 879,543**

12. EQUITY

Japanese companies are subject to the Companies Act of Japan (the "Companies Act"). The significant provisions in the Companies Act that affect financial and accounting matters are summarized below:

(a) Dividends

Under the Companies Act, companies can pay dividends at any time during the fiscal year in addition to the year-end dividend upon resolution at the shareholders' meeting. For companies that meet certain criteria including (1) having a Board of Directors, (2) having independent auditors, (3) having an Audit & Supervisory Board, and (4) the term of service of the directors being prescribed as one year rather than the normal two year-term by its articles of incorporation, the Board of Directors may declare dividends (except for dividends-in-kind) at any time during the fiscal year if the Company has prescribed so in its articles of incorporation. With respect the third condition above, the Board of Directors of companies with (a) board committees (namely, appointment committee, compensation committee, and audit committee) or (b) an audit and supervisory committee (as implemented under the Companies Act effective May 1, 2015) may also declare dividends at any time because such companies, by nature, meet the criteria under the Companies Act. The Company is organized as a company with an audit and supervisory committee, effective June 28, 2017. However, the Company cannot do so because it does not meet all the above criteria.

The Companies Act permits companies to distribute dividends-in-kind (non-cash assets) to shareholders subject to a certain limitation and additional requirements.

Semiannual interim dividends may also be paid once a year upon resolution by the Board of Directors if the articles of incorporation of the Company so stipulate. The Companies Act provides certain limitations on the amounts available for dividends or the purchase of treasury stock. The limitation is defined as the amount available for distribution to the shareholders, but the amount of net assets after dividends must be maintained at no less than ¥3 million.

(b) Increases/decreases and transfer of common stock, reserve, and surplus

The Companies Act requires that an amount equal to 10% of dividends must be appropriated as a legal reserve (a component of retained earnings) or as additional paid-in capital (a component of capital surplus), depending on the equity account charged upon the payment of such dividends, until the total aggregate amount of legal reserve and additional paid-in capital equals 25% of the amount of common stock. Under the Companies Act, the total amount of additional paid-in capital and legal reserve may be reversed without limitation. The Companies Act also provides that common stock, legal reserve, additional paid-in capital, other capital surplus, and retained earnings can be transferred among the accounts within equity under certain conditions upon resolution at the shareholders' meeting.

(c) Treasury stock and treasury stock acquisition rights

The Companies Act also provides for companies to purchase treasury stock and dispose of such treasury stock by resolution of the Board of Directors. The amount of treasury stock purchased cannot exceed the amount available for distribution to the shareholders, which is determined by a specific formula. Under the Companies Act, stock acquisition rights are presented as a separate component of equity. The Companies Act also provides that companies can purchase both treasury stock acquisition rights and treasury stock. Such treasury stock acquisition rights are presented as a separate component of equity or deducted directly from stock acquisition rights.

(d) Stock-based incentive system for directors and executive officers

The Company introduced a stock compensation plan for directors (excluding outside directors) and executive officers (hereinafter referred to as "Directors" collectively) by resolution approved at the 95th general shareholders meeting held on June 26, 2019.

(1) Overview of the plan

The plan is a stock compensation plan under which shares of the Company will be acquired through a trust (the "Trust" refers to a trust established based on the plan) using funds contributed by the Company. The shares of the Company and cash equivalent to the value of the Company's shares converted at market value (the "Company's shares, etc.") will be provided to the Directors through the Trust, pursuant to the "Rules on provision of shares to officers" set forth by the Company. The Company's shares, etc., will be granted to the Directors at the time of retirement of the Directors, in principle.

(2) Shares of the Company held by the Trust

The Company records shares of the Company in the Trust as treasury stock at cost (excluding acquisition-related costs). For the year ended March 31, 2024 and 2023, the corresponding carrying amount of such treasury stock was ¥202 million ($1,337 thousand) and ¥223 million, and the number of shares was 225 thousand and 248 thousand.

13. INCOME TAXES

The Group is subject to income taxes. The aggregate normal statutory tax rates for the Company approximated 28% for each of the years ended March 31, 2024 and 2023. Such rates for the consolidated subsidiaries approximated 30% for the years ended March 31, 2024 and 2023.

The tax effects of significant temporary differences and tax loss carryforwards which resulted in deferred tax assets and liabilities at March 31, 2024 and 2023, were as follows:

	Millions of yen		Thousands of U.S. dollars
	March 31,		March 31,
	2024	2023	**2024**
Deferred Tax Assets:			
Depreciation and amortization	**¥ 21,742**	¥ 20,951	**$ 143,986**
Asset retirement obligations	**14,622**	14,384	**96,834**
Net defined benefit liabilities	**5,612**	6,400	**37,165**
Intercompany profit elimination	**4,502**	4,259	**29,814**
Tax loss carried forward	**1,315**	6,926	**8,708**
Other	**18,041**	19,775	**119,476**
Less valuation allowance for tax loss carried forward	**(17)**	(2,330)	**(112)**
Less valuation allowance for a total of deductible temporary difference	**(11,490)**	(12,926)	**(76,092)**
Total	**54,329**	57,442	**359,794**
Deferred Tax Liabilities:			
Special account related to nuclear power decommissioning	**9,091**	10,305	**60,205**
Prepaid pension costs	**4,752**	2,900	**31,470**
Capitalized asset retirement costs	**3,182**	3,455	**21,072**
Deferred gain on derivatives under hedge accounting	**1,126**	1,450	**7,456**
Other	**2,037**	1,987	**13,490**
Total	**20,190**	20,098	**133,708**
Net Deferred Tax Assets	**¥ 34,138**	¥ 37,343	**$ 226,079**

Tax loss carried forward and its deferred tax assets by deadline, were as follows:

	Millions of yen						
March 31, 2024	**2025**	**2026**	**2027**	**2028**	**2029**	**2030 And thereafter**	**Total**
Tax loss carried forward	**¥ 40**	**¥ 2**				**¥ 1,272**	**¥ 1,315**
Less valuation allowance	**(15)**	**(2)**					**(17)**
Deferred tax asset	**25**					**1,272**	**1,298**

	Millions of yen						
March 31, 2023	2024	2025	2026	2027	2028	2029 And thereafter	Total
Tax loss carried forward	¥ 93	¥ 91	¥ 38		¥ 230	¥ 6,472	¥ 6,926
Less valuation allowance	(62)	(91)	(38)		(230)	(1,906)	(2,330)
Deferred tax asset	30	0				4,565	4,596

March 31, 2024	2025	2026	2027	2028	2029	2030 And thereafter	Total
	Thousands of U.S. dollars						
Tax loss carried forward	**$ 264**	**$ 13**				**$ 8,423**	**$ 8,708**
Less valuation allowance	**(99)**	**(13)**					**(112)**
Deferred tax asset	**165**					**8,423**	**8,596**

The tax loss carried forward is the amount multiplied by the statutory effective tax rate.
Deferred tax assets are recorded for the portion judged to be recoverable based on the estimated amount of future taxable income based on the business plan approved by management.

A reconciliation between the normal effective statutory tax rate and the actual effective tax rate reflected in the accompanying consolidated statement of income for the year ended March 31, 2024, was as follows:

	2024
Normal effective statutory tax rate	28%
Decrease in valuation allowance	(4.8%)
Difference in tax rates of consolidated subsidiaries	0.7%
Other	0.7%
Actual effective tax rate	24.6%

A reconciliation between the normal effective statutory tax rate and the actual effective tax rate reflected in the accompanying consolidated statements of operations for the years ended March 31, 2023, is omitted, as net loss was recorded.

Application of the Group Tax Sharing System

The Company and a part of domestic consolidated subsidiaries apply the group tax sharing system.
Accounting and disclosure for income taxes and tax effect accounting are applied the " Practical Solution on the Accounting and Disclosure Under the Group Tax Sharing System" (Practical Solution No. 42, August 12, 2021, Accounting Standards Board of Japan).

14. REVENUE RECOGNITION

(1) Revenue from contracts with customers

Revenue from contracts with customers for the years ended March 31, 2024 and 2023, consisted of the following:

	Millions of yen		Thousands of U.S. dollars
	2024	**2023**	**2024**
Revenue from contracts with customers	**¥ 708,580**	¥ 804,914	**$4,692,582**

(2) Disaggregation of revenue from contracts with customers

Disaggregation of revenue into reportable segments for the years ended March 31, 2024 and 2023, were as follows:

	Millions of yen					
	Reportable segments					
	Electric utility					
March 31, 2024	Power generation and sales	Transmission and distribution	Telecommunications services	Energy	Construction /Engineering	**Total**
Sales						
Retail sales	**¥ 478,288**	**¥ 402**				**¥ 478,691**
Wholesale	**69,103**	**40,654**				**109,758**
Other revenue	**1,913**	**27,055**	**35,454**	**20,105**	**27,883**	**112,411**
Total	**¥ 549,306**	**¥ 68,112**	**¥ 35,454**	**¥ 20,105**	**¥ 27,883**	**¥ 700,860**
Revenues recognized from other sources	**¥ 62,829**	**¥ 9,283**	**¥ 2,311**	**¥ 2,253**	**¥ 110**	**¥ 76,787**

	Millions of yen					
	Reportable segments					
	Electric utility					
March 31, 2023	Power generation and sales	Transmission and distribution	Telecommunications services	Energy	Construction /Engineering	Total
Sales						
Retail sales	¥ 492,946	¥ 3,904				¥ 496,851
Wholesale	121,078	63,894				184,972
Other revenue	2,012	27,729	35,515	19,849	26,516	111,624
Total	¥ 616,037	¥ 95,528	¥ 35,515	¥ 19,849	¥ 26,516	¥ 793,447
Revenues recognized from other sources	¥ 15,535	¥ 7,968	¥ 939	¥ 2,104	¥ 107	¥ 26,655

March 31, 2024	Thousands of U.S. dollars					
	Reportable segments					
	Electric utility		Telecommunications services	Energy	Construction /Engineering	**Total**
	Power generation and sales	Transmission and distribution				
Sales						
Retail sales	**$ 3,167,470**	**$ 2,662**				**$ 3,170,139**
Wholesale	**457,635**	**269,231**				**726,874**
Other revenue	**12,668**	**179,172**	**234,794**	**133,145**	**184,655**	**744,443**
Total	**$ 3,637,788**	**$ 451,072**	**$ 234,794**	**$ 133,145**	**$ 184,655**	**$ 4,641,456**
Revenues recognized from other sources	**$ 416,086**	**$ 61,476**	**$ 15,304**	**$ 14,920**	**$ 728**	**$ 508,523**

(Notes) 1. The amount shows sales to external customers.
2. Revenues recognized from other sources include subsidies received as part of the "Measures to Mitigate Drastic Fluctuations in Electricity and Gas Prices" implemented based on the "comprehensive economic measures to overcome high prices and realize economic revitalization". They include ¥62,220 million ($412,052 thousand) for “Power generation and sales”, ¥32 million ($211 thousand) for “Transmission and distribution”, and ¥412 million ($2,728 thousand) for “Energy”.
3. Since the above doesn’t include “Other”, the total amount doesn’t match “Revenue from contracts with customers”

(3) Information for understanding the amount of income for the current consolidated fiscal year and the following consolidated fiscal year

Receivables arising from contracts with customers, contract assets and contract liabilities at the beginning and end of the years ended March 31, 2024 were as follows:

① Balance of contract assets and contract liabilities, etc.

	Millions of yen		Thousands of U.S. dollars	
	Ending Balance (March 31, 2024)	Beginning Balance (April 1, 2023)	**Ending Balance (March 31, 2024)**	Beginning Balance (April 1, 2023)
Receivables arising from Contracts with Customers				
Notes receivable	**¥ 2,562**	¥ 3,037	**$ 16,966**	$ 22,664
Accounts receivable	**72,730**	72,947	**481,655**	544,380
Contract Assets	**11,041**	7,938	**73,119**	59,238
Contract Liabilities	**1,438**	1,635	**9,523**	12,201

(Notes) 1. Receivables arising from contracts with customers include bonds related to the renewable energy special measures law levy related to Feed-in Tariff Program for Renewable Energy.
2. Contract assets were recorded mainly in businesses other than the electric business.

② Transaction price allocated to the remaining performance obligation

The transaction prices allocated to the remaining performance obligations related to retail sales and wholesale in the electric business are as follows, and are expected to be recognized as profits in the actual supply and demand year stipulated in each contract.

	Millions of yen	Thousands of U.S. dollars
	2024	**2024**
Due within one year	**¥ 37,971**	**$ 251,463**
Due over one year and within three years	**36,876**	**244,211**
Due over three years	**33,408**	**221,245**
Total	**¥ 108,256**	**$ 716,927**

In accordance with practical expenditures stated in the "Accounting Standard for Revenue Recognition" (Accounting Standard No. 29,March31, 2020) in paragraphs 80-22, (1) and (2) is applied, and among contracts with an initially expected contract within a year and contracts with an initially expected contract period of more than one year, not including contracts that recognize profits based on the amount of power determined by meter reading (based on the meter reading date) in the above table.

Receivables arising from contracts with customers, contract assets and contract liabilities at the beginning and end of the years ended March 31, 2023 were as follows:

① Balance of contract assets and contract liabilities, etc.

	Millions of yen	
	March 31,	
	2023	Beginning of 2023
Receivables arising from Contracts with Customers		
Notes receivable	¥ 3,037	¥ 3,061
Accounts receivable	72,947	68,955
Contract Assets	7,938	6,537
Contract Liabilities	1,635	3,437

(Notes) 1. Receivables arising from contracts with customers include bonds related to the renewable energy special measures law levy related to Feed-in Tariff Program for Renewable Energy.
2. Contract assets and contract liabilities were recorded mainly in businesses other than the electric business.

② Transaction price allocated to the remaining performance obligation

The transaction prices allocated to the remaining performance obligations related to retail sales and wholesale in the electric business are as follows, and are expected to be recognized as profits in the actual supply and demand year stipulated in each contract.

	Millions of yen
	2023
Due within one year	
Due over one year and within three years	¥ 50,393
Due over three years	24,454
Total	¥ 74,848

In addition, the practical convenience stipulated in "Accounting Standard for Revenue Recognition" (Accounting Standard No. 29, March 31, 2020) in paragraphs 80-22, (1) and (2) is applied, and among contracts with an initially expected contract within a year and contracts with an initially expected contract period of more than one year, not including contracts that recognize profits based on the amount of power determined by meter reading (based on the meter reading date) in the above table.

15. RESEARCH AND DEVELOPMENT COSTS

Research and development costs charged to income were ¥4,364 million（$28,900 thousand）and ¥4,151 million for the years ended March 31, 2024 and 2023, respectively.

16. LOSS ON BUSINESS OF SUBSIDIARIES AND ASSOCIATES

Loss on business of subsidiaries and associates for the years ended March 31, 2024, consisted of the following.

	Millions of yen	Thousands of U.S. dollars
	March 31,	March 31,
	2024	**2024**
Loss on valuation of shares of subsidiaries and associates	**¥ 1,924**	**$ 12,741**
Provision for loss on business of subsidiaries and associates	**689**	**4,562**
Total	**¥ 2,614**	**$ 17,311**

17. LEASES

［Lessee］
The minimum lease payments under noncancelable operating leases subsequent to March 31, 2024 and 2023, were as follows:

	Millions of yen		Thousands of U.S. dollars
	March 31,		March 31,
	2024	2023	**2024**
Due within one year	**¥ 173**	¥ 120	**$ 1,145**
Due after one year	**195**	355	**1,291**
Total	**¥ 369**	¥ 475	**$ 2,443**

［Sublease］
Lease investment assets and lease obligations, without deducting interest expense in the accompanying consolidated balance sheet as of March 31, 2024, under sublease transactions, were as follows:

	Millions of yen		Thousands of U.S. dollars
	March 31,		March 31,
	2024	2023	**2024**
Lease investment assets:			
Other current assets	**¥ 15,781**	¥ 15,438	**$ 104,509**
Lease obligations:			
Current portion of long-term debt	**2,793**	2,645	**18,496**
Long term dept	**12,987**	12,792	**86,006**

18. FINANCIAL INSTRUMENTS AND RELATED DISCLOSURES

(1) Group policy for financial instruments

The Group uses financial instruments, mainly long-term debt, including bonds and loans, based on its capital financing plan. Short-term borrowings are used to fund ongoing operations. Cash surpluses, if any, are invested in low-risk financial assets. Derivatives are not used for speculative purposes, but to manage exposure to financial risks as described in (2) below.

(2) Nature and extent of financial instruments and risk management

Investment securities, mainly equity instruments for ensuring stable and efficient operation of the electric utility business, are managed by monitoring market values and financial position of issuers on a regular basis.

Accounts receivable are mostly for electricity charges and managed individually.

The repayments of bonds and loans are primarily long-term, and the interest rates for them are fixed. Although they are exposed to market risks from changes in interest rates, fluctuations in interest have only a limited impact on the Group.

Payment terms of payables, such as trade notes and trade accounts, are less than one year.

Derivatives mainly include foreign exchange forward contracts and interest rate swaps, which are used to manage exposure to market risks from changes in foreign currency exchange rates of payables and from changes in interest rates of loans. Derivative transactions are conducted by executive and administrative departments based on internal regulations. The counterparties to these derivatives are limited to major international financial institutions, etc. with high credit ratings. Therefore, the Group does not anticipate any losses arising from credit risk. Please see Note 19 for more details about derivatives.

(3) Supplementary explanation on matters related to the fair values of financial instruments, etc.

Since the calculation of the fair values of financial instruments incorporates variable factors, the value may fluctuate by adopting different preconditions.

(4) Fair values of financial instruments

Fair values of financial instruments are based on quoted prices in active markets. If a quoted price is not available, other rational valuation techniques are used instead. Please also see Note 19 for the details of fair value for derivatives.

	Millions of yen		
March 31, 2024	Carrying amount	Fair value	Unrealized gain (loss)
Investment securities	**¥ 3,259**	**¥ 3,259**	
Total	**3,259**	**3,259**	
Bonds	**431,994**	**409,813**	**¥ (22,180)**
Long-term loans	**485,300**	**468,315**	**(16,984)**
Total	**¥ 917,294**	**¥ 878,129**	**¥ (39,165)**

	Thousands of U.S. dollars

Total	**$ 6,074,794**	**$ 5,815,423**	**$ (259,370)**

Notes: 1. Bonds and long-term loans in the above table include the current portion of such instruments.

2. Since "Cash and cash equivalents", "Notes and accounts receivable", and "Notes and accounts payable" are cash or are settled in a short period of time, and their carrying amount approximate fair value, the note is omitted.

3. At March 31, 2024 nonmarketable available-for-sale equity securities were ¥33,013 million ($218,629 thousand), and its carrying amount was not included in the above table.

4. At March 31, 2024 investing in unions, etc. that record the amount equivalent to equity in the balance table in net amount is not included in "securities and other securities", based on " Implementation Guideline of Accounting Standard for Fair Value Measurement" (Implementation Guideline of Accounting Standard No. 31, June 17, 2021) in paragraph 24-16. The amount recorded on the consolidated balance sheet is ¥8,881 million ($58,814 thousand).

March 31, 2023	Carrying amount	Fair value	Unrealized gain (loss)
	Millions of yen		
Investment securities	¥ 3,562	¥ 3,562	
Total	3,562	3,562	
Bonds	461,992	444,620	¥ (17,371)
Long-term loans	486,300	479,548	(6,751)
Total	¥ 948,292	¥ 924,169	¥ (24,122)

Notes: 1. Bonds and long-term loans in the above table include the current portion of such instruments.

2. Since "Cash and cash equivalents", "Notes and accounts receivable", " Notes and accounts payable ", and "Commercial paper" are cash or are settled in a short period of time, and their carrying amount approximate fair value, the note is omitted.

3. At March 31, 2023 nonmarketable available-for-sale equity securities were ¥31,875 million, and its carrying amount was not included in the above table.

4. At March 31, 2023 investing in unions, etc. that record the amount equivalent to equity in the balance table in net amount is not included in "securities and other securities", based on " Implementation Guideline of Accounting Standard for Fair Value Measurement" (Implementation Guideline of Accounting Standard No. 31, June 17, 2021) in paragraph 24-16. The amount recorded on the consolidated balance sheet is ¥13,688 million.

(5) Maturity analysis for financial assets and securities with contractual maturities

March 31, 2024	Due in 1 year or less	Due after 1 Year through 5 Years	Due after 5 Years through 10 Years	Due after 10 Years
	Millions of yen			
Investment securities				**¥ 2,083**
Cash and cash equivalents	**¥ 118,296**			
Notes receivable	**2,639**			
Accounts receivable	**123,165**			
Other current assets	**50**			
Total	**¥ 244,150**			**¥ 2,083**

Other assets are time deposits with a deposit period of more than three months for which collateral is set for payment to business partners.

March 31, 2024	Due in 1 year or less	Due after 1 Year through 5 Years	Due after 5 Years through 10 Years	Due after 10 Years
	Thousands of U.S. dollars			
Investment securities				**$ 13,794**
Cash and cash equivalents	**$ 783,417**			
Notes receivable	**17,476**			
Accounts receivable	**815,662**			
Other current assets	**331**			
Total	**$ 1,616,887**			**$ 13,794**

March 31, 2023	Due in 1 year or less	Due after 1 Year through 5 Years	Due after 5 Years through 10 Years	Due after 10 Years
	Millions of yen			
Investment securities				**¥ 1,837**
Cash and cash equivalents	**¥ 105,904**			
Notes receivable	**3,595**			
Accounts receivable	**111,882**			
Other current assets	**50**			
Total	**¥ 221,432**			**¥ 1,837**

Please see Note 9 for annual maturities of long-term debt.

(6) Matters concerning the breakdown of financial instruments by market value level

The fair value of financial instruments is classified into the following three levels according to the observability and importance of the inputs used to calculate the fair value.

Level 1 fair value: Of the inputs related to the observable fair value calculation, the fair value calculated based on the market price of the asset or liability that is formed in an active market and is subject to the calculation of the fair value.

Level 2 fair value: Of the inputs related to the calculation of the observable market value, the fair value calculated using the inputs related to the calculation of the fair value other than the level 1 input.

Level 3 fair value: Fair value calculated using inputs related to the calculation of unobservable fair value.

When multiple inputs that have a significant influence on the fair value calculation are used, the fair value is classified into the level to which those inputs belong, which has the lowest priority in the fair value calculation.

(7) Financial instruments whose fair value is the amount recorded on the consolidated balance sheet, were as follows:

	Millions of yen			
March 31, 2024	Level1	Level2	Level3	Total
Investment securities				
Available for sale securities	**¥ 1,251**	**¥ 32**	**¥ 1,975**	**¥ 3,259**

March 31, 2023	Millions of yen			
	Level1	Level2	Level3	Total
Bonds		¥ 444,620		¥ 444,620
Long-term loans		479,548		479,548
Total liabilities		¥ 924,169		¥ 924,169

March 31, 2024	Thousands of U.S. dollars			
	Level1	Level2	Level3	Total
Bonds		$ 2,713,993		$ 2,713,993
Long-term loans		3,101,423		3,101,423
Total liabilities		$ 5,815,423		$ 5,815,423

(9) Explanation of the evaluation method and the inputs related to the calculation of the fair value

Investment securities

The fair values of listed stocks are evaluated using the market price, and since they are traded in an active market, they are classified as a Level 1 fair value.

Since there is no transaction price in the market, the fair value of investment trusts is based on the standard price and is classified as a Level 2 fair value.

The fair value of bonds is calculated by the present value of the total amount of principal and interest discounted by the interest rate that incorporates credit risk. Since the inputs used to calculate the interest rate are unobservable, it is classified as Level 3 fair value.

Derivatives

The fair values of derivatives are calculated based on the prices offered by the financial institutions of the business partners, and are classified as Level 2 fair value.

Embedded derivatives related to long-term depts that include derivatives are intended to fix fluctuations in interest rates, and their fair value is included in the fair value of the long-term depts.

Bonds

The fair values of bonds issued by the Company are evaluated using the market price and is classified as Level 2 fair value.

Long-term loans

The fair value of long-term debt is calculated by the present value of the total amount of principal and interest discounted by the interest rate obtained by adding the credit spread to an appropriate index such as the yield of government bonds, and is classified as Leve l 2 fair value.

(10) Information on Level 3 fair value of financial assets and financial liabilities whose fair value is the amount recorded on the consolidated balance sheet, were as follows:

Quantitative information about significant unobservable inputs

The fair value of bonds of investment securities is calculated by the discounted present value, and its discount rate is 4.36%.

A reconciliation of the fair value of bonds of investment securities from beginning balance to ending balance, and Unrealized income on available-for-sale securities which charged to income in the current consolidated profit and loss statement

	Millions of yen	Thousands of U.S. dollars
Beginning balance	**¥ 1,786**	**$ 11,827**
Income in the current consolidated fiscal year or other comprehensive income		
Other comprehensive income	**189**	**1,251**
Net purchases, sales, issuances and settlements		
Ending balance	**¥ 1,975**	**$ 13,079**

"Other comprehensive income" in the above table is included in "Unrealized income on available-for-sale securities" on consolidated statement of comprehensive income.

Explanation of the fair value valuation process

The trading department calculates the fair value of financial instruments classified as Level 3 fair value by the valuation policy established for the calculation of fair value, and the calculation result is approved by the appropriate responsible person.

Explanation of effects on fair value when significant unobservable inputs are changed

The discount rate is calculated by adding risk factors such as credit risk on the standard market interest rate. Generally, significant increase (decrease) in the discount rate will result in a significant decrease (increase) in the fair value of available-for-sale securities.

19. DERIVATIVES

The Company uses derivative financial instruments ("derivatives"), including foreign exchange forward contracts and currency swaps, to hedge foreign currency exchange rate risk associated with certain assets and liabilities denominated in foreign currencies. The Company also enters into interest rate swap contracts as a means of managing its interest rate exposure on certain liabilities. The Company does not hold or issue derivatives for trading or speculation purposes.

The counterparties to these derivatives are limited to major international financial institutions, etc. with high credit ratings. Therefore, the Company does not anticipate any losses arising from credit risk.

There were no derivative transactions to which hedge accounting is not applied at March 31, 2024.
Derivative transactions to which hedge accounting is not applied at March 31, 2023, were as follows:

	Millions of yen			
March 31, 2023	Contract Amount	Contract Amount Due after One Year	Fair Value	Unrealized gain (loss)
Electricity Futures:				
Fixed payment, floating receipt	¥ **114**		¥ **(28)**	¥ **(28)**
Total	¥ **114**		¥ **(28)**	¥ **(28)**

Derivative transactions to which hedge accounting is applied at March 31, 2024 and 2023, were as follows:

Reclassification adjustments to profit or loss	**(573)**	207	**(3,794)**
Total	**646**	6,748	**4,278**
Total other comprehensive income	**¥ 7,272**	¥ 8,915	**$ 48,158**

22. RELATED-PARTY TRANSACTIONS

(1)Related – party transactions of the Company

Significant transactions of the Company with directors and Audit & Supervisory Committee members, unconsolidated subsidiaries, and associated companies for the years ended March 31, 2024 and 2023, were as follows:

Ryohei Kagawa (Audit & Supervisory Committee Member)

	Millions of yen		Thousands of U.S. dollars
	2024	2023	**2024**
Transactions:			
Borrowing funds	**¥ 2,600**	¥ 8,000	**$ 17,218**
Payment of interest	**234**	199	**1,549**
Balances:			
Long-term debt	**¥ 47,100**	¥ 44,500	**$ 311,920**

Note:
Ryohei Kagawa, who is an Audit & Supervisory Committee Member, was concurrently the director and Vice-President and CCO (representative director) of The Hyakujushi Bank, LTD. (the "Bank").
The Company borrowed from the Bank of which he was a representative, and the interest rate has been reasonably determined considering the market rate of interest. Collateral for the loans is not being offered.

(2) Related – party transactions of consolidated subsidiaries

Significant transactions of consolidated subsidiaries with associated companies for the years ended March 31, 2024 and 2023, were as follows:

Yondenko Corporation

(The Company owns 31.9% of the common stock of Yondenko Corporation at March 31, 2024)

	Millions of yen		Thousands of U.S. dollars
	2024	2023	**2024**
Transactions:			
Construction	**¥ 19,439**	¥ 20,869	**$ 128,735**
Maintenance	**18,549**	15,922	**122,841**
Balances:			
Other current liabilities	**¥ 5,331**	¥ 4,235	**$ 35,304**

23. PER SHARE INFORMATION

Basic net income(loss) per share（“EPS”）for the years ended March 31, 2024 and 2023, were as follows:

	Millions of yen	Thousands of Shares	Yen	U.S. dollars
For the year ended:	Net income(loss) attributable to owners of the parent	Weighted-average shares	EPS	
March 31, 2024	**¥ 60,515**	**205,661**	**¥ 294.25**	**$ 1.94**
March 31, 2023	¥ (22,871)	205,701	¥ (111.19)	

24. SUBSEQUENT EVENTS

Appropriation of retained earnings

At the shareholders’ meeting of the Company held on June 26, 2024, the following appropriation of retained earnings as of March 31, 2024, was approved.

	Millions of yen	Thousands of U.S. dollars
Year-end cash dividends, ¥15 ($0.09) per share	**¥3,112**	**$ 20,609**

25. SEGMENT INFORMATION

Under the Accounting Standards Board of Japan(“ASBJ”) Statement No. 17, “Accounting Standard for Segment Information Disclosures”, and ASBJ Guidance No. 20, “Guidance on Accounting Standard for Segment Information Disclosures”, an entity is required to report financial and descriptive information about its reportable segments. Reportable segments are operating segments or aggregations of operating segments that meet specified criteria. Operating segments are components of an entity about which separate financial information is available and for which such information is evaluated regularly by the chief operating decision maker in deciding how to allocate resources and in assessing performance. Generally, segment information is required to be reported on the same basis as is used internally for evaluating operating segment performance and deciding how to allocate resources to operating segments.

(1) Description of reportable segments

The Group’s reportable segments are those for which separate financial information is available and regular evaluation by the Company’s management is performed in order to decide how resources are allocated among the Group.
For the year ended March 31, 2024, the Group’s reportable segments consisted of five segments: “Power generation and sales,” “Transmission and distribution”, “Telecommunications services,” Energy “,” and “Construction/Engineering.”

(2) Methods of measurement for the amounts of sales, profit, assets, and other items for each reportable segment

The accounting policies of each reportable segment are consistent with those disclosed in Note 2, “Significant accounting and reporting policies.” Reportable segment profit is based on ordinary income, same amount of loss before reversal of reserve for fluctuations in water level and income taxes in this fiscal year. Also, intersegment sales or transfers are computed based on market price.

(3) Information about sales, profit (loss), assets, and other items of the Group for the years ended March 31, 2024 and 2023, were as follows:

Notes: 1."Other" consists of product and sales of electric devices, commercial business, and others.

2. Amounts of adjustment for the year ended March 31, 2024, was as follows:

- An adjustment of segment profit(loss) of ¥(1,190) million ($(7,880) thousand), which represents transactions made between segments, is eliminated. Segment profit(loss), after this adjustment, is consistent with the ordinary profit.
- An adjustment of segment assets of ¥(500,351) million ($(3,313,582) thousand), which represents transactions made between segments, is eliminated.
- An adjustment of depreciation of ¥(1,271) million ($(8,417) thousand), which represents transactions made between segments, is eliminated.
- An adjustment of interest income of ¥(2,912) million ($(19,284) thousand), which represents transactions made between segments, is eliminated.
- An adjustment of interest expense of ¥(2,912) million ($(19,284) thousand), which represents transactions made between segments, is eliminated.
- An adjustment of equity gains(losses) of associated companies of ¥(155) million ($(1,026) thousand), which represents transactions made between segments, is eliminated.
- An adjustment of increase in property, plant and equipment and intangible assets of ¥(2,041) million ($(13,516) thousand), which represents transactions made between segments, is eliminated.

3. Amounts of adjustment for the year ended March 31, 2023, was as follows:

- An adjustment of segment profit(loss) of ¥(751) million, which represents transactions made between segments, is eliminated. Segment profit(loss), after this adjustment, is consistent with the ordinary profit.
- An adjustment of segment assets of ¥(484,936) million, which represents transactions made between segments, is eliminated.
- An adjustment of depreciation of ¥(1,135) million, which represents transactions made between segments, is eliminated.
- An adjustment of interest income of ¥(3,191) million, which represents transactions made between segments, is eliminated.
- An adjustment of interest expense of ¥(3,191) million, which represents transactions made between segments, is eliminated.
- An adjustment of equity gains(losses) of associated companies of ¥(120) million, which represents transactions made between segments, is eliminated.
- An adjustment of increase in property, plant and equipment and intangible assets of ¥(1,448) million, which represents transactions made between segments, is eliminated.

INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
Shikoku Electric Power Company, Incorporated:

<Audit of Consolidated Financial Statements>

Opinion

We have audited the consolidated financial statements of Shikoku Electric Power Company, Incorporated and its consolidated subsidiaries (the "Group"), which comprise the consolidated balance sheet as of March 31, 2024, and the consolidated statement of income, consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies, all expressed in Japanese yen.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as of March 31, 2024, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with accounting principles generally accepted in Japan.

Convenience Translation

Our audit also comprehended the translation of Japanese yen amounts into U.S. dollar amounts and, in our opinion, such translation has been made in accordance with the basis stated in Note 1 to the consolidated financial statements. Such U.S. dollar amounts are presented solely for the convenience of readers outside Japan.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the provisions of the Code of Professional Ethics in Japan, and we have fulfilled our other ethical responsibilities as auditors. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matter

A key audit matter is a matter that, in our professional judgment, was of most significance in our audit of the consolidated financial statements of the current period. The matter was addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on the matter.

【Electric lighting and electric power charges in the Power Generation & Sales segment】

Key Audit Matter Description

Electric lighting charges and electric power charges (hereinafter referred to as the "electric charges") are the primary revenue streams of the electricity business and are particularly significant accounts in the Group's consolidated financial statements. The Group recorded ¥689,531 million of operating revenues for the electricity business for the year ended March 31, 2024, which accounted for approximately 90 percent of the Group's overall operating revenue. Since the electricity business requires significant investments in equipment, such as power generating units, to run its business, the proportion of the fixed expenses to the operating expenses is large and the break-even point is high. Therefore, if misstatements occur in electric charges, such misstatements could materially impact net income.

Electric charges consist of high-volume transactions that is low in value, though each transaction of electric charges is immaterial compared to the total amount of revenue. In addition, the electric charges are automatically calculated by the IT systems based on customer data and meter reading data and are interfaced with the accounting system. In order to detect potential misstatements that could have a material impact on profits from the revenue population, it is necessary to obtain sufficient audit evidence by testing individual transactions with customers as well as to perform an analysis and other audit procedures multilaterally and comprehensively based on our understanding and evaluation of the process of recording electric charges.

As such, we identified revenue recognition from electric charges as a key audit matter because it requires extensive audit procedures as it is quantitatively material to the consolidated financial statements.

How the Key Audit Matter Was Addressed in the Audit

Our audit procedures related to revenue recognition of the electric charges included the following, among others:

(1) Given that the electric charges are uniformly processed in accordance with power-supply terms and conditions, we performed analytical procedures by disaggregating the population based on certain criteria, such as terms and conditions of supply agreements.

i. Analytical procedures as risk assessment procedures

We disaggregated the population of transactions of electric charges revenue by main price menu, area and basic charge and meter-rate charge. We performed a monthly transaction analysis by comparing the disaggregated amounts with sales volume of electric light electricity (kWh), the unit price of sales (yen/kWh), the number of contracts and the volume of the contracted power (kW) to determine whether the results were consistent with the competitive business environment and the historical results and to assess the probability of misstatement indicators for recording the revenue transactions.

ii. Substantive analytical procedures

For certain menus that are quantitatively material among various price menus which constitute electric charges, we developed an expectation for electric charges revenue by each material disaggregated population and compared it to the recorded balance. Our expectations were developed by multiplying the meter reading data by the contract unit price considering the revision to the specified retail supply agreement terms and conditions (regulated rates) implemented in June 2023, the fuel cost adjustments calculated based on the applicable upper limit price in the fuel cost adjustment system, various rate discount plans offered by the Group, and discounts funded by government subsidies provided based on the project called the "Measures to Mitigate Drastic Fluctuations in Electricity and Gas Prices." We evaluated any material differences between the expected amounts and recorded balances by performing inquiries with the responsible personnel and performing detail testing of the transaction, as necessary.

(2) The data used in the substantive analytical procedures was generated from the IT systems of the respective business process. To test the reliability of the data and identify the relevant controls, we obtained an understanding of the accounting process for electric charges. We then evaluated the design and operating effectiveness of the following underlying general IT controls and relevant controls performed by management, among others:

✓ Application and Contract	Review and approval by administrators to authorize the access to the system and ensure the accuracy of the registration information such as customer and contract data
✓ Metering	Review and approval by administrators to authorize the access to the system and follow-up procedures for identified abnormal meter reading data
✓ Conditioning	Examination and approval by the administrator to verify the correction of the amounts in the conditioning report and unusual results therein
✓ Billing and Revenue recognition	Testing of the accuracy and completeness of system interface controls and automated controls for electric charges revenue data

In understanding the accounting process of the electric charges, we prepared a process flow diagram to identify risks of material misstatements and how controls, including IT application controls, are designed and implemented in the business processes. With the assistance of our IT specialists, we determined the scope and evaluation of IT application controls and the related general IT controls. We also evaluated the automated controls, focusing on the automated reporting process that identifies the abnormal meter reading data, as well as the automated reporting process that extracts unusual conditioning results.

(3) For substantive procedures other than the substantive analytical procedures, we selected a sample of revenue transactions and performed detail transaction testing by agreeing subsequent cash collections related to the electric charges to supporting documents, such as bank statements and/or bank transfer data. For corporate customers who demand extra-high or high voltage electric power service, we also tested the subsequent cash receipts on a sample basis by tracing to supporting evidence, such as bank transfer data provided from the bank.

(4) We evaluated manual adjustments to the revenue transactions within the IT system for appropriateness by performing detail transaction testing for the material adjustments. In addition, we tested the operating effectiveness of the IT application controls within the IT systems that prevents the access of unauthorized personnel.

(5) In addition, to address the risks of management override of controls, we tested manual journal entries recorded directly to the accounting system.

Other Information

Other information comprises the information included in the Group's disclosure documents accompanying the audited consolidated financial statements, but does not include the consolidated financial statements and our auditor's report thereon.

We determined that no such information existed and therefore, we did not perform any work thereon.

Responsibilities of Management and the Audit and Supervisory Committee for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern in accordance with accounting principles generally accepted in Japan and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Audit and Supervisory Committee is responsible for overseeing the Directors' execution of duties relating to the design and operating effectiveness of the controls over the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in Japan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks. The procedures selected depend on the auditor's judgment. In addition, we obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain, when performing risk assessment procedures, an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate whether the overall presentation and disclosures of the consolidated financial statements are in accordance with accounting principles generally accepted in Japan, as well as the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit and Supervisory Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit and Supervisory Committee with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with it all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit and Supervisory Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

<Fee-Related Information>

Fees for audit and other services for the year ended March 31, 2024, which were charged by us and our network firms to Shikoku Electric Power Company, Incorporated and its subsidiaries were ¥144 million and ¥91 million, respectively.

Interest Required to Be Disclosed by the Certified Public Accountants Act of Japan

Our firm and its designated engagement partners do not have any interest in the Group which is required to be disclosed pursuant to the provisions of the Certified Public Accountants Act of Japan.
